Large group facilitated discussion
- 10:15-10:30 AM Networking Break
- 10:30-11:00 AM Academic Knowledge Base Research Presentation
The Food Science Academic Knowledge Base is designed to broadly inform the food science community on the state food science education. The research is designed to understand trends in enrollment, education and attitudes. The research combines quantitative and aggregated institutional data from food science programs with survey data given by food science students about their motivations and perspectives in their pursuit of food science degrees. The research data collected is meant to inform programs and decisions to help recruit the best and brightest minds to education and careers in the important field of food science.
Kate Dockins and Dinesh Rajangam, IFT Business & Research Analyst
- 11:00- 11:45 AM Active Learning Session
